A I M ANNOUNCEMENTS, INFORMATIONS, MEETINGS	23

Preface

The past year has been generally successful for the ESSC. The Society has continued to grow and we now have nearly 600 members. Much of this growth is from the countries of eastern Europe and this gives us a welcome base to our aim of being a true European organization from the "Atlantic to the Urals". In order to encourage this development, the Executive Committee has decided to extend the period of free membership to those from East European countries to cover 1993.

The Society held its First Congress at Silsoe in April and duly elected its new Council and Executive Committee. Although, as of the organisers, it would not be appropriate for me to comment on the success of the Congress, it was attended by over 100 members and some very good papers and discussion sessions were held. Some impressions of the Congress were reported in the Newsletter 2/1992. The 1996 Congress will be held in Weihenstephan, Germany, and I encourage you all to make plans to be here.

Unfortunately, the year was also one of grief with the death of our first President, Professor Jan de Ploey, whose foresight led to the founding of the Society and whose kindness and enthusiasm will be greatly missed. Tributes to Professor de Ploey were published in the Newsletter 2/1992 and a Memorial Symposium will be held in his honour in Leuven in March 1993.

Plans are being made for future meetings of the ESSC and these will be announced in the Newsletter. May I again commend the Newsletter to you as a way of communicating news to other members. Send your contributions to the Editor, John Boardman, who will be pleased to receive information about any activity related to soil conservation in your country. This can include notices of future meetings, staff changes, research grants and contracts, soil protection policies and legislation, and reports on instances of soil degradation.

Best wishes for a happy and successful year. I look forward to meeting you at the various ESSC functions.

R.P.C. Morgan
President

AIM - ANNOUNCEMENTS, INFORMATION, MEETINGS

Membership contribution 1993-95

The Council has decided to set the membership fee for 1993-95 to 35,-- DM (= 23 American Dollars) per year or to 100,-- DM (= 65 American Dollars) for the tree years. It will enable the Society to cover expenses also in other fields of activity and to supply our colleagues in Eastern Europe with the newsletter (see report 1989-91). So this increase should also be considered as an act of solidarity among european scientists.

If you can afford it, please pay this three years together. This saves work and money for you and for the Society. Beginning from 1993 there will be the possibility to pay the membership contribution by credit cards (American Express, Eurocard, Visa). More information will be given in Newsletter 1/93.

The Executive Committee has decided during its meeting at Budapest in November 1992 to extend the period of free membership to those from East European countries to cover also 1993.

Yours sincerely

G. Richter
Secretary and Treasurer
