E.S.S.C.

**EUROPEAN SOCIETY FOR
SOIL CONSERVATION**

Members of ESSC

E.S.S.C. NEWSLETTER 4 / 1993

Executive Committee of the E.S.S.C.:

President: Prof. R.P.C. Morgan, Silsoe College
Silsoe
Bedford MK45 4DT, United Kingdom

Vice-Presidents: Prof. Dr. H. Vogt, Strasbourg, France
Dr. J.L. Rubio, Valencia, Spain

Secretary-Treasurer: Prof. Dr. G. Richter, Trier, FRG

Members: Dr. J. Poesen, Leuven, Belgium
Prof. Dr. N. Misopolinos, Thessaloniki, Greece
Dr. A. Kertész, Budapest, Hungary

The NEWSLETTER is published by the editor board:

Editor-in-Chief: Dr. J. Boardman, School of Geography
University of Oxford
Mansfield Road
Oxford OX1 3TB
United Kingdom

Co-Editors: Prof. Dr. G. Richter, Trier, FRG
Dr. J.L. Rubio, Valencia, Spain
Prof. Dr. H. Vogt, Strasbourg, France

Produced by the Secretary's Office, Trier, December 1993

Composed by Martin Müller

Printed by Paulinus-Druckerei, Trier

<i>ANNOUNCEMENTS.....</i>	<i>24</i>

Preface

After the exciting first four years since its foundation, the ESSC is necessarily entering a period of consolidation. The future of the Society, however, depends on what we do during this period. We can either sit back and remain passive or we can actively direct the way we want the Society to develop. It is perhaps all too easy to adopt the former attitude in the knowledge that the Society continues to function well. Our Newsletter is published regularly, thanks to the considerable efforts of John Boardmann, our Editor-in-Chief, and we have a healthy programme of workshops and conferences. However, we need to ask whether this is all that we demand from the Society. I rather hope that is not, since all that it will lead to is a succession of trips to different parts of Europe for ourselves in which we preach the gospel of soil protection to each other.

If we want others to take notice of the Society, we need to enhance our ability to influence policy-makers and to ensure that future decisions on soil management are based on sound science. It is therefore up to us to liaise with the planners and decision-makers in our own countries at national, regional and local level to find out their needs and let them know of our Society and what it can offer. In order to enhance this process, a leaflet describing the Society and its activities will be produced in the early part of 1994. This can be used to advertise the Society and to recruit members. I hope that we will all use it for this purpose. Also, in the coming year, the Council will be considering the establishment of 'expert groups' so that we are in a better position to respond to requests for advice. Other ideas on what the Society should do will be welcome. Please send them either to me or to one of your Council representatives.

The Society was involved in a very successful Memorial Symposium for Professor Jan De Ploey in Leuven, last March, and an excellent workshop was organised in Taormina, Sicily, in October. The respective organisers, Jean Poesen and Gerard Govers in Leuven and Paola Vella and Marcello Zimbone in Taormina and their colleagues are to be congratulated on their hard work, resulting in efficiently-run and very enjoyable meetings. In April 1994, the Society breaks new ground in two respects with its meeting in Hungary. First, we have our first conference in eastern Europe. Second, we have a theme outside that of soil erosion and its control. This is our opportunity to show that the Society truly encompasses all aspects of soil protection. Please circulate the information on the meeting to all those interested in the management of saline and alkaline soils and encourage them to come.

I wish you all a successful and prosperous 1994. I hope this time next year to be able to report positively on the initiatives we are all talking or going to take to ensure the continued well-being of our Society.

R.P.C. Morgan
President

NOTICES RECEIVED

THE EMAIL-BASED SOIL EROSION DISCUSSION LIST:

After the publication of newsletter 3/93 the email adress of the author unfortunatly has changed.
The correct adress is bb@uni-trier.de. We really do regret the confusion.

NEW PUBLICATION ON SOIL CONSERVATION IN THE UKRAINE

Prof. Vitalii Vladimirovich Medvedev, Kharkov, offers a new publication:

V.V. MEDVEDEV (ED.): Collection of articles by Ukrainian members of European Society for Soil Conservation 1993. 68 pp.

Content:

MEDVEDEV, V.V.; NOSKO, B.S.; BULYGIN, S.J. & SEROKUROV, J.I.: The conception of the rational use of the Ukainian soil cover.

TARARIKO, A.G.: Soil protecting contour-ameliorative farming system.

SHWEBBS, G.I.: Rational land utilization, conservation and monitoring on the basis of the GIS technology.

BULYGIN, S.J.: Soil conservation agrolandscapes: Soil aspect.

SHELJAKIN, N.M.: Planning and estimation of contour-ameliorative farming-systems under Ukrainian steppe conditions.

SVETLICHNY, A.A.: Mathematical modelling of the erosion-accumulative process on a slope.

MOZEIKO, G.A.: Southern and dry Ukrainian steppe. Main conditions restraining the development of agriculture and creation of soil protecting and balanced agrolandscapes.

LISETSKI, F.N.: The historic retrospect of landscape ecological situations.

The price will be about 15 DM. Please send your subscription to the secretary treasurer Prof. Dr. G. Richter, University of Trier, D-54286 Trier/Germany.

Short report

A Russian-American-Ukrainian workshop on quantitative estimation of water erosion was held 20-24 September 1993 at Moscow State University, Faculty of Geography. Main topics were:

- Modelling and theory of erosion processes.
- Calibration and testing of models.
- Influence of seasonal changes of factors of erosion.
- Demonstration of computer-based models.
- Permissible soil loss.
- Field excursions.

A meeting of the heads of Russian institutes of agriculture was held 25-27 October in Kursk. It was devoted to the problem of protective systems of agriculture development. It was decided that the nearest future the main issue of investigations will be the development of soil protective landscape based systems of agriculture.

Materials of the meeting can be found in the following publications (in russian language):

LANDSCAPE AGRICULTURE. PART 1. A concept of development of highly productive ecologically stable agricultural landscapes and improvement of agricultural systems on landscape basis. Kursk, 1993, p. 99.

LANDSCAPE AGRICULTURE. PART 2. Recommendations on development of landscape based systems of agriculture. Kursk, 1993, p. 53.

EUROPEAN SOCIETY FOR SOIL CONSERVATION

Conference on

PROBLEMS AND MANAGEMENT OF SOIL SALINIZATION-ALKALIZATION IN EUROPE

Budapest & Karcag (Hungary), 26-30 April, 1994

Second Circular

The main objective of the Conference is to give an open "Forum" for the discussion and exchange of experiences on the problems and management of soil salinity/alkalinity in Europe.

The main topics of the Conference are salinization-alkalization in relation to:

- (a) other soil degradation processes, such as physical degradation of soil (structure destruction, compaction, surface sealing); water and wind erosion;
- (b) agricultural water management (control of soil moisture regime, water conservation agrotechnics; irrigation; drainage);
- (c) sustainable land use and soil management;
- (d) environment protection (soil pollution, toxicity, "chemical time bomb", etc.).

Host Institute:

Research Institute for Soil Science and Agricultural Chemistry (RISSAC) of the Hungarian Academy of Sciences (HAS), Budapest, Hungary.

Venue of the Conference: In Budapest: Hotel Rózsadomb

H-1025 Budapest, II., Vérhalom u. 17.

Tel.: (36-1) 115-0287, Fax.: (36-1) 115-5481

and in Karcag: Research Institute for Soil Tillage and Amelioration of
the Debrecen Agricultural University, Karcag.

Date of the Conference: 26 to 30 April, 1994.

Programme

April 25 (Monday)

16.00-20.00 p.m. Arrival of participants (to Budapest).

Registration (at Hotel Rózsadomb).

April 26 (Tuesday)

8.00-12.00 a.m. Registration (for participants arriving later).

9.30 a.m.-18.00 p.m. Opening Ceremony and Paper Session (Budapest).

April 27 (Wednesday)

8.00 a.m.-18.00 p.m. Field trip to the Kiskunság Area (Kiskunság National Park: saline lakes, salt-affected soils and ecosystems).

Bus trip: Budapest → Kecskemét → Kiskunság → Budapest.

April 28 (Thursday)

- 7.00-10.00 a.m. Trip to Karcag by bus (Budapest → Szolnok → Karcag).
11.00 a.m.-18.00 p.m. Paper Session at the Karcag Research Institute for Soil Tillage and Amelioration of the Debrecen Agricultural University.

April 29 (Friday)

- 8.00 a.m. - 18.00 p.m. Field trip(by bus) to the Nagykunság salt-affected area (heavy-textured solonetzes, lysimeter station, experimental station, practical management of alkali soils). Accomodation near Karcag.

April 30 (Saturday)

- 8.00 a.m. - 18.00 p.m. Field trip to the Hortobágy Puszta (by bus) (salt-affected soils, extensive land-use practices; Museum of the National Park). Accomodation near Karcag.

May 1 (Sunday)

- 6.00-9.00 a.m. Return to Budapest by bus (early morning). Departure of participants.

Additional Information

1. The Final Registration Form should be returned by *not later than 15 March, 1994* to the following address:

Prof. Dr. G. Várallyay, Director of RISSAC
Correspondent Member of the Hungarian Academy of Sciences
Research Institute for Soil Science and Agricultural Chemistry
of the Hungarian Academy of Sciences
H-1022 Budapest, Herman O. út 15.
Telefax: (36-1) 155-8839.

2. Deadline for Abstracts (one page): *15 March, 1994*.

The Abstract Volume will be available for the Conference participants during Registration.

3. *Costs of the Conference.*

Registration fee for ESSC members: 160 US \$
Registration fee for non-ESSC members: 200 US \$.

It includes:
- Conference facilities, coffee, refreshments
- local transport in Budapest and field excursions
- services of the Conference Secretariat.

The Registration Fee should be transferred to the following bank account:

Prof. Dr. G. Richter/E.S.S.C, Deutsche Bank Trier, Account No.: 501932 (BLZ 585 700 48)
or using the payment instructions for credit cards on the last page of this Newsletter.

Expected costs of accomodation (including breakfast): Single room/night: 30 US \$
Double room/night: 42 US \$

Budapest, 10 January, 1994.

Head, Physical Geography
Geographical Research Institute
of the HAS
H-1388 Budapest, P.O.B. 64.

EUROPEAN SOCIETY FOR SOIL CONSERVATION

Symposium on SODDING IN VINEYARDS - POSSIBILITIES AND LIMITATIONS Graz and Retz (Austria), 22-28 September 1994

First Circular

The main objective of this symposium is to give possibility for the discussion and exchange of experiments on the problem of sodding in vineyards.

The main topics of the symposium are:

1. Technical possibilities for the sodding in vineyards under different climatic conditions.
2. To find the best mixtures on plants, adapted the climatic conditions.
3. Natural limits for sodding, f.e. water-deficient.

Host Institut:

Departement of Engineering Geology and Applied Mineralogy at the Graz Technical University,
Rechbauerstraße 12, A-8010 Graz, Austria.

Venue of the Symposium: Graz (Styria) and Retz (Lower Austria).

Date of the Symposium: 22 to 28 September 1994.

Programme

September 22 (Thursday) Arrival of participants (to Graz).

12.00-16.00 p.m. Registration, opening ceremony and paper session (Graz).

September 23 (Friday) Paper session.

September 24 (Saturday) Field trip to East and West Styria (Vineyards with different kinds of sodding).

September 25 (Sunday) Travel from Graz to Retz. On the way visit from some vineyards in Styria, Burgenland and Lower Austria.

September 26 (Monday) Excursion around Retz and paper session.

September 27 (Tuesday) Paper session (Retz).

September 28 (Wednesday) Paper session at Retz, closing ceremony and field trip in the direction Vienna airport Schwechat (about 15.00 p.m.) and Graz (about 17.00 p.m.).

Additional Information

1. The preliminary registration form should be returned by *not later than 15 April, 1994* to the following address:

O. Nestroy

Institut für Technische Geologie und Angewandte Mineralogie
Technische Universität Graz
Rechbauerstraße 12
A-8010 Graz (Austria)

Call for papers: See attached registration form.

2. Deadline for abstracts (one page): **1 June, 1994**. The abstract volume will be available for the participants during registration. All details will be given in the next circular.

3. ***Expected costs for the symposium:*** Registration fee for ESSC members 70 US \$

Registration fee for non-members **150 US**
It includes: Symposium facilities, coffee refreshments, services of the symposium secretariat.

For the transport by bus during this symposium are to pay 90 US \$. For technical reasons the participation with private cars - except the outward and return journey - it's possible.

Costs for lodging (bed & breakfast) for the whole time for one person: Single-room 200 US \$
Double-room 140 US \$

The number of participants is limited with 40 persons (lodging, bus transfers).

Please let us know if you would like to receive the future circular by completing and returning the registration form enclosed.

I intend to present a paper entitled:

AIMS OF THE SOCIETY / ZWECK DER VEREINIGUNG / BUTS DE L'ASSOCIATION / OBJETIVOS DE LA SOCIEDAD

The ESSC is an interdisciplinary, non-political association, which is dedicated to investigating and realizing soil conservation in Europe.

The ESSC pursues its aims in the scientific, educational and applied sectors

- by supporting investigation on soil degradation, soil erosion and soil conservation in Europe,
- by informing the public about major questions of soil conservation in Europe,
- by collaborating with institutions and persons involved in practical conservation work in Europe.

The ESSC aim at co-ordinating the efforts of all parties involved in the above cited subjects: research institutions; teachers and students of geo-sciences, agriculture and ecology; farmers; agricultural planning and advisory boards; industries and governmental institutions.

Die ESSC ist eine interdisziplinäre, nicht politische Vereinigung. Ihr Ziel ist die Erforschung und Durchführung des Schutzes der Böden in Europa.

Die ESSC verfolgt dieses Ziel auf wissenschaftlichem, erzieherischem und angewandtem Gebiet

- durch Unterstützung der Forschung auf den Gebieten der Boden-Degradierung, der Bodenerosion und des Bodenschutzes in Europa,
- durch Information der Öffentlichkeit über wichtige Fragen des Bodenschutzes in Europa,
- durch Zusammenarbeit mit Institutionen und Personen, die an der Praxis des Bodenschutzes in Europa beteiligt sind.

Die ESSC will alle Personen und Institutionen zusammenführen, die sich für die genannten Ziele einsetzen: Forschungsinstitutionen, Lehrer und Studenten der Geowissenschaften, der Landwirtschaftswissenschaften und der Ökologie, Bauern, landwirtschaftliche Planungs- und Beratungsstellen, Industrieunternehmen und Einrichtungen der öffentlichen Hand.

L'ESSC est une association interdisciplinaire et pas politique. Le but de l'association est la recherche et les réalisations concernant la conservation du sol en Europe.

L'ESSC poursuit cette finalité dans les domaines de la recherche scientifique, de l'éducation et de l'application:

- en encourageant la recherche sur la dégradation, l'érosion et la conservation du sol en Europe,
- en informant le public des problèmes majeurs de la conservation du sol en Europe;
- par la collaboration avec des institutions et des personnes impliquées dans la pratique de la conservation du sol en Europe.

L'ESSC souhaite favoriser la collaboration de toutes les personnes et institutions poursuivant les buts définis ci-dessus, en particulier: institutions de recherche, professeurs et étudiants en géosciences, agriculteurs, administrateurs de planification et de conseil agricole, industrie, institutions gouvernementales.

La ESSC es una asociación interdisciplinaria, no-política, dedicada a la investigación y a la realización de acciones orientadas a la conservación del suelo en Europa.

La ESSC persigue sus objetivos en los sectores científicos, educacionales y aplicados:

- promocionando la investigación sobre degradación, erosión y conservación de suelos en Europa;
- informado al público sobre las principales cuestiones de conservación de suelos en Europa;
- colaborando con instituciones y personas implicadas en la práctica de la conservación de suelos en Europa;

La ESSC aspira a coordinar los esfuerzos de todas las partes implicadas en los temas arriba mencionados: centros de investigación; profesores y estudiantes de geo-ciencias, agricultura y ecología; agricultores; servicios de extensión agraria; industrias e instituciones gubernamentales.
